Merchant Support receives a request for information on credit card acceptance or for acquiring equipment and merchant ID.

The requestor receives an explanatory email with detailed information on PCI compliance requirements and associated fees.

A written request and justification must be completed in order to obtain approval for accepting credit cards as a form of payment.

Moving forward? Choose the type of merchant account. The next steps will be determined by the kind of account selected.

Need more information for your department or business? Please contact: merchantsupport@ucdavis.edu.
